Why IT?

Over one million new IT jobs are created every year.

CyberCareers was designed for the information workers of the future.

Already more than one third of all jobs in the United States are information technology related, making IT the fastest growing industry in America.

Information technology is becoming a major tool to accomplish career goals across all professions and industries.

FACT ~ According to a recent report, one in every 12 IT jobs will go unfilled due to a lack of skilled workers.
